

HC11-140P

Cold Water Cleaner

Specifications

- ➔ 2100 P.S.I. (140 Bar) pump pressure
- ➔ 2750 P.S.I. turbo pressure (optional)
- ➔ 11 Litres Per Minute pump volume
- ➔ 5.5 H.P. Honda petrol motor
- ➔ 3400 RPM pump
- ➔ Light duty machine

Standard Equipment

- ➔ 8 Metres high pressure hose
- ➔ Insulated on/off pistol assembly
- ➔ Single lance assembly
- ➔ High and Low pressure mode
- ➔ Chemical suction hose with strainer
- ➔ Operators and parts manuals

Features

Interpump with ceramic pistons and brass head

Inlet water filter

Pressure gauge

3 Stage powder coated zinc annealed frame with 2 pneumatic wheels and rubber foot

Thermal dump valve protection

Benefits

Non-corrosive pump head to extend pump life and reduced maintenance costs

Stops debris from scoring pistons and seals

Easily monitor pump performance

Resistant to corrosion, with greater manoeuvrability over tough terrain

Protects pump from overheating when in bypass
