Description

Atomex 15"/38cm Airless Gun Extension - 11/16" Thread F Nut

This will suit all airless spray guns with 11/16" Nut or "F" thread

Made in the USA using high quality aircraft grade aluminum and features a hand tight nut design which requires no tools to fit onto your gun. Atomex gun extensions include X-Series tip guards which are compatible with Atomex, Graco Rac V, Wagner and Titan tips. Gun extensions provide extra reach & keep the operator cleaner when spraying.

Maximum working pressure is 4200psi, suitable for all electric and petrol driven airless spray systems.

Atomex airless gun extension will fit onto all brands of airless spray guns such as Airlessco, ASM, Graco, Wagner and Titan that have 11/16" Thread or "F Nut". 11/16" thread pattern is mainly used on older Wagner machine and guns sold before 2007.

Gun extensions can be joined together to allow you more reach.
