The Atomex X-800 automatic glass bead guns are made to the highest quality with stainless steel construction. Single acting automatic glass bead gun has an external spring tension adjuster to assist in precise gun shut off with a 100mm wide glass bead deflector.

Description

Atomex X-800 Automatic Glass Bead Gun For Line Marking Trucks.

The Atomex X-800 automatic glass bead guns are made to the highest quality with stainless steel construction. Single acting automatic glass bead gun has an external spring tension adjuster to assist in precise gun shut off with a 100mm wide glass bead deflector.

The X-800 automatic glass bead gun is designed for use with road line marking trucks, the gun offers high value, reliability and a more affordable price compared with other brands.

The Atomex X-800 stainless steel automatic glass bead gun is a cost effective replacement of the Graco 238338 automatic glass bead gun, high in quality at a much lower price. All bead sizes of bead nozzle from the Graco 238338 automatic glass bead will interchange with the Atomex X-800

Consider the Atomex X-800 stainless steel automatic glass bead gun next time your line marking truck guns need refurbishing, full spare parts back up will keep you spraying more lines.
