Short Description

Atomex 1/4" x 30m 4000psi Airless Paint Spray Hose includes 1/4" NPT Female Fittings that will connect to any airless paint sprayer and gun.

Description

Atomex 1/4" 4000psi Rated Airless Paint Spray Hose is the most standard hose size used on airless paint sprayers.

Atomex 1/4" 4000psi rated airless paint hoses are available in a variety of custom lengths. Compatible with all brands of airless spray guns, airless sprayers and airless paint hoses.

Airless paint spray hoses can be joined together using a joining nipple to make a longer length but please check the specifications of the airless paint sprayer that you have to ensure you do not exceed the maximum length recommended.

Atomex Part No. AX/05-200-304

Replaces Graco Part No. 223771

DO NOT apply thread tape to the fitting on your airless spray gun or joining nipple, airless paint hoses use seated fittings and **DO NOT** require thread tape. Using thread tape may cause damage to the fitting on the airless paint hose and will probably cause it to leak.
