Product Images

Short Description

Atomex 1/2" x 15m 3400psi Airless Paint Hose includes 1/2" NPT Female Fittings that will connect to any airless paint sprayer and gun that uses a 1/2" outlet.

Description

Atomex 1/2" x 15m 3400psi Airless Paint Hose is useful for thicker paint products where more flow is required. Suitable for machines with 1/2" fittings.

Airless paint spray hoses can be joined together using a joining nipple to make a longer length but please check the specifications of the airless paint sprayer that you have to ensure you do not exceed the maximum length recommended.

Atomex Part No. AX/05-500-158

Replaces Graco Part No. 277253

DO NOT apply thread tape to the fitting on your airless spray gun or joining nipple, airless paint hoses use seated fittings and **DO NOT** require thread tape. Using thread tape may cause damage to the fitting on the airless paint hose and will probably cause it to leak.
