Short Description

Wagner F230 3 In 1 Electrostatic, AirCoat and Airless System combines the latest technology in electrostatic and aircoat applications with an airless system

Description

The Wagner 3-in-1 System combines the latest technology in electrostatic and aircoat applications with an airless system, all designed to produce the perfect finish. The system comes complete on a single trolley with three different gun and hose packages. This is the perfect mobile system for any painting contractor who uses all three types of technology on their projects.

This is the ideal system for those projects where various types of applications are required. Portable and easy to use with simple changeover of gun and hose packages.

Comes complete on mobile trolley with F230 diaphragm pump, 5 litre hopper, compressor, VM500 power pack, GM5000 EACR electrostatic gun, R15 electrostatic tip, 2 x 10m fluid and air hoses, AC4600 aircoat gun, base and tip, Vector Pro airless gun, base and tip, 15m airless hose.
