Short Description

The Atomex XM-68 air powered airless sprayer is ideal for spraying heavy industrial protective coatings, the proven durability of these pumps makes it the ideal choice for industrial spray applicators. Available in 45:1, 56:1 and 68:1 pump ratio's to suit a wide range of industrial paint applications.

Description

The Atomex XM-68 air powered airless sprayers are specially designed for both small and large workshops where large volumes of paint product need to be applied. The long slow piston stroke delivers no pulsation at the spray tip ensuring a high quality finish on every pass. Large high pressure fluid filters are standard on this model to reduce rubbish in the paint causing tip blockages and wear.

Atomex XM-68 Air Powered Airless Sprayer Package

The Atomex XM-68 air powered airless sprayer comes standard with 20 litre drum suction hose set, 15m x 3/8" paint hose, 1.8m x 1/4" whip hose, Atomex X-750II airless spray gun and 517 Atomex X-75HD reversible spray tip.

The Atomex XM-68 Air Powered Airless Sprayer features:

Economical long lasting fluid pump and air motor

Full spare parts back up

Balanced fluid manifold

No pulsation delivery of paint

All metal construction, no plastic covers to break

Comes standard with the Atomex X-750II airless spray gun

25 Months Warranty for commercial use
