Short Description

This gravity feed cup is designed to work with the GFG, GFHV, GTI and FLG gravity feed spray guns.

Description

DeVilbiss Gravity Cup Complete Part No. GFC-501 is constructed from acetal which is easier to clean and resists stains better than nylon. This cup has a unique drip check lid to prevent paint from dripping out of the vent in the lid. It has a high grade stainless steel connector, compatible with waterborne and all common coating materials.

DeVilbiss Gravity Cup Complete is compatible with the following DeVilbiss Gravity Spray Guns -

DeVilbiss GTi Pro Gravity Spray Gun

DeVilbiss GTi Pro Lite Gravity Spray Gun

DeVilbiss PRi Pro Lite Gravity Spray Gun

DeVilbiss GPi Gravity Spray Gun

DeVilbiss GFG Pro Gravity Spray Gun

DeVilbiss FLG-5 Gravity Spray Gun

Don't put up with old cups that leak and are hard to clean, replace your cup and keep your DeVilbiss spray gun working to maximum performance.
