Short Description

DeVilbiss expertise and performance unequalled at work... The DeVilbiss GTi PRO spray gun family ensures there's a spray gun to suit all types of industrial spray finishing application.

The DeVilbiss GTi ProLite is discontinued and replaced with the DeVilbiss PROLite

DeVilbiss expertise and performance unequalled at work... The DeVilbiss GTi PRO Lite spray gun family ensures there's a spray gun to suit all types of industrial spray finishing application.

The DeVilbiss GTi Pro Lite suction guns are available in only two air cap variations, please read below before choosing your air cap.

TE10 Air Cap Specifications:

270 L/min (9.5 cfm) @ 2.0 bar (30psi) High Efficiency Trans-Tech aircap best suited for base and clear coating. TE10 is available in pressure feed (no pot) or suction feed which includes 1 Litre Suction Pot.

TE20 Air Cap Specifications:

360 L/min (12.7 cfm) @ 2.0 bar (30psi) High Efficiency Trans-Tech aircap best suited for base and clear coating. TE20 is available in pressure feed (no pot) or suction feed which includes 1 Litre Suction Pot.

You can remove the suction pot and use this gun as a high quality/high finish pressure feed gun.

The superior DeVilbiss GTi Pro Lite performance is achieved with new and improved design technology utilising free breathing high capacity air passages and a coaxial linear air valve to provide unrestricted and even flow of compressed air through the spray gun body. This smooth air movement enables the precision-engineered air caps and fluid tips to produce superior atomisation with consistent droplet distribution throughout the spray pattern.

The DeVilbiss GTi Pro Lite is precision built using the highest quality materials and component parts for a guaranteed, reliable, long and durable working life in all industrial markets. A drop forged aluminium body with tough anodised external finish, high grade stainless steel fluid tips and needles and nickel plated hard brass air caps all contribute to a gun that can last in the extreme environment of the spray shop. When routine maintenance is needed then the simple design and easy to maintain format ensures minimum down time and interrupted production.

DeVilbiss GTi Pro Lite Spray Gun Features -

- Enhanced ergonomics combined with DeVilbiss' legendary fit and feel ensure incredible performance, handling and balance
- Comprehensive range of Conventional, HVLP and Trans Tech (Compliant) Air Caps for choice of Transfer Efficiency, Atomisation power and Application requirements
- Extensive range of stainless steel, hardened and tungsten carbide fluid tips and needles for all types of industrial applications
- Coaxial trigger air valve design for lighter trigger pull and improved air flow
- Drop forged aluminium gun body and removable air baffle for a longer working life.
- Fully Environmental Legislation Compliant with high transfer efficiency resulting in significant paint savings.
- Air adjuster valve provides instant "on gun" pressure adjustment for the sprayer
- Fully ATEX certified and authorised for use in the EU community
