## Description

---

DeVilbiss Advance HD conventional pressure feed spray guns are a conventional mid sized gun designed for use with paint pressure pots and double diaphragm pumps to deliver high quality finishing for industrial paint applications.

### **DeVilbiss expertise and performance is unequalled in the industry!**

The DeVilbiss Advance *HD* (High Demand) pressure feed spray guns are designed for conventional technology, the air cap provides exceptional atomisation for coating wood, metal, plastic, ceramic and composite substrates with most types of solvent, waterborne, high solids and 2K materials.

### **DeVilbiss Advance HD Pressure Feed Spray Gun – Naturally comfortable**

Advance *HD*'s unique high capacity airflow and outstanding atomisation characteristics are combined with a separate "balanced" air valve to provide an unrestricted flow of compressed air through the gun body, this coupled with light, feel right comfort is an unbeatable combination. DeVilbiss Advance HD spray guns are ideal for small operations or high volume spraying, with the added bonus of instantly improved finishing productivity.

### **DeVilbiss Advance HD Pressure Feed Spray Gun Features –**

- Wide range of conventional atomisation air caps provide a superior sprayed finish
- Robust, Lightweight and work friendly design for High Demand outputs
- Stainless Steel tips, needles and fluid passageways as standard
- Contoured handle design – Greatly reduces
- CE marked and fully ATEX approved
