Short Description

The Graco Reverse a Clean airless spray guard attaches to all airless spray guns that are 7/8" thread. The guard acts as a safety device to prevent a persons body part to directly contact the tip when spraying paint, and also holds the paint sprayer tip in place

Description

Graco RAC X Airless Spray Gun 7/8" Tip Guard

The Graco Reverse a Clean airless spray guard attaches to all airless spray guns that are 7/8" thread. The guard acts as a safety device to prevent a persons body part to directly contact the tip when spraying paint, and also holds the paint sprayer tip in place

This guard will work with Graco's Reverse-A-Clean (RAC) X tips, as well as Graco's Fine Finish and WideRac tips. This guard is not compatible with Graco's RAC V and IV spray tips or spray tips from other manufacturers.

Fits virtually all Graco airless sprayer guns except old-style pole guns.

Holds all RAC X SwitchTips tips

- LTX - Latex, regular tip (blue)
- FFT - Fine Finish (green)
- WR - WideRAC (blue - for large sprayers)

Graco Part No. 246215

Please note - If you are buying this tip guard for a Graco Cordless handheld it will only fit two models sold in Australia

Graco Ultra Corded Handheld Part No. 17M362

Graco Ultra Cordless Handheld Part No. 17N221

This tip guard will not fit the Graco UltraMax Cordless Handheld Part No. 17N225 (water based/solvent based unit). You will need to order Part No. 17P573 because it uses a different thread on the fluid outlet/front valve.
