Short Description

An industry first, the LineLazer 250SPS all-in-one Stand-On Self-Propelled line striper/Line Marker for parking

lots and roads. Riding upright is the preferred position for striping professionals - it improves visibility, reduces fatigue and increases productivity. Quickly stripe a large number of parking spots with razor sharp, long, straight lines.

Description

An industry first, the LineLazer 250SPS all-in-one Stand-On Self-Propelled line striper/Line Marker for parking lots and roads. Riding upright is the preferred position for striping professionals - it improves visibility, reduces fatigue and increases productivity. Quickly stripe a large number of parking spots with razor sharp, long, straight lines.

The 250SPS LineLazer line striper is made for applications such as parking lots, roads, airport runways, loading zones, warehouse floors and can be used to stripe athletic fields too. Common materials sprayed with this line striping machine include common traffic paints, latex, architectural coatings, removable synthetic paints and turf paints.

The Graco LineLazer 250SPS features an option to mount the gun in the rear near the tire, or the standard mount next to the castor. Mounting the gun in front gives the operator improved visibility, and mounting it in the back means you get a tight striping radius. The 250SPS features Graco's Auto-Layout System with new automatic gun system to mark with on-board paint rather than from aerosol cans. The stand on or flip up platform is easy to get on and off and gives the user the ability to have an improved sight line. All controls and triggers are accessible from the standing platform.

Graco LineLazer V 250SPS HP Automatic Series Features:

- Comfortable stand-on shock absorbing platform - Improved striping sight line, and easy to get on and off.
- Electronic paint spray trigger provides quick response and reduces spraying hand fatigue.
- Automatic dashed lines simplify the application of parking lot lines.
- Auto-Layout.
- 2-gun system.
- Smooth Ride pneumatic tires for reduced fatigue, vibration and long-straight lines.
- Large capacity 25 gallon (95 liter) paint hopper included - less paint refills.
- Easy Out Filter makes tip clogs a thing of the past.
- Siphons from disposable paint bucket, eliminating tank or pot cleaning hassles.
- Paint circles and arcs or easily switch to gun and spray stencils or large solid areas.
- Control accessible from standing position. Start and stop the engine, view distance and paint consumption, adjust pressure.
- Self-centering steering locks in place for a straight line and automatically swivels to turn.
