

# Graco 24C857 G40 RAC X LTX Air Assisted Spray Gun 4000psi

**\$2,068.00**  
**INCL. GST**

## Product Images

## Short Description

Graco G-40 RAC X Air Assisted Spray Gun is used for medium to high viscosity materials is designed for maximize efficiency and quality. Choice of Graco RAC X LTX reversible spray tip comes with this gun.

## Description

---

For use with Air Assisted Airless Sprayers up to 4000psi (40:1 Ratio) spraying high viscosity materials and designed for maximize efficiency and quality. Choice of Graco RAC X LTX reversible spray tip comes with this gun.

The RAC X LTX is interchangeable with Graco FFLP Fine Finish Low Pressure Tips which can be useful if you require a finer finish at even lower pressure.

Designed to maximize efficiency and quality, G15 and G40 air-assist spray guns use the highest quality components for long lasting reliable performance. Graco RAC X LTX are ideal for heavier products where tip blockages may occur more often, the LTX tip can be reversed and unblocked easily.

### **Graco 24C857 G40 RAC X Air Assisted Spray Gun 4000psi Features -**

- High quality air-assisted spraying in a variety of applications
- All tips have a ring to retain the tip in the aircap
- Designed to minimize wear of replacement parts
- Improving transfer efficiency and material usage
- Trigger pull force is ultra-light, reducing operator fatigue and muscle stress

### **Designed for spraying the following material -**

- **Acid Catalyzed, Epoxies**
- **High Solids, Lacquer**
- **Latex**
- **Plural Component Materials**
- **Polyurethane**
- **Solventborne**
- **Urethane**
- **UV Coating**
- **Varnish**
- **Waterborne**

Graco Part No. 24C857

### **Read this before ordering this gun -**

This gun does not have air control like other G15's or G40's that use flat carbide tips. Graco remove the air control from these guns when being used with reversible LTX and LP tips.

If you own a Graco FinishPro 395/595 air assisted package please check the end of you air hose. If you air hose has a 1/4" nut fitting designed to screw onto the air inlet of the gun then this gun is ok to purchase.

If your air assisted air hose has a clear PVC tube at the end that is just slid over the barb on the air inlet of your gun then you should purchase Graco G40 262929.

If you are unsure about which is the correct gun for your machine just call our office during business hours and we can assist.
