

Graco 287021 20"/50cm Tip Extension With RAC X Guard

\$126.50
INCL. GST

Product Images

Short Description

Graco 20"/50cm Tip Extension attaches directly to your spray gun and reduces your need for ladders or scaffolding. Great for spraying those hard-to-reach areas like ceilings, overhangs and decks. Includes a RAC X spray tip guard.

Description

Graco Tip Extension with 7/8" (G Thread) is compatible with most airless spray guns. Includes a RAC X Tip guard but can be removed to fit other manufacturers tip and tip guard system.

Graco tip extensions are made of light weight aluminium to reduce operator fatigue and increase reach for spraying ceilings, cornice or any high reach application.

Gun extensions are also useful when spraying a floor or roof, add a gun extension to your hand gun and stand upright when spraying to reduce back fatigue from bending over.

Graco tip extensions are available in the following sizes –

- Part No. 287019 - 10"/25cm Tip Extension
- Part No. 287020 - 15"/40cm Tip Extension
- Part No. 287021 - 20"/50cm Tip Extension
- Part No. 287022 - 30"/75cm Tip Extension
