## Product Images

## Short Description

Graco Evenflow Pressure Roller Frame Assembly with 230mm Roller Frame and 50cm Extension Pole and In-Line Gun that will attach to the end of any airless paint spray hose with 1/4" fittings

## Description

---

Graco pressure roller assembly comes with a 230mm roller frame, 50cm extension pole and in-line gun. This roller frame requires an airless sprayer to supply paint via the paint hose to the in-line gun, generally you will need to turn the pressure down to approx 500psi because you are only feeding the roller frame with paint. Pressure frame is rated to 3600psi.

The roller frame requires special perforated roller sleeves which have holes in the core of the nap to allow the paint to flow through. You can't use normal roller sleeves with this roller frame.

**Graco produce three sizes of 230mm roller covers for use with this frame -**

Part No. 107589 10mm Nap Roller Cover x 230mm/9" Wide

Part No. 107590 13mm Nap Roller Cover x 230mm/9" Wide

Part No. 107591 19mm Nap Roller Cover x 230mm/9" Wide

Please note - This roller frame does include 1 x 10mm x 230mm roller cover.
