Graco Bluemax II 3300psi 1/4" Airless Paint Hose is the most standard airless paint hose used on Graco airless paint sprayers.

1/4" airless paint hoses are standard for most of the Graco electric and gas powered airless sprayers. They are also used by most airless paint sprayer manufacturers as the standard size hose usually in 15m lengths.

Airless paint spray hoses can be joined together using a joining nipple to make a longer length but please check the specifications of the airless paint sprayer that you have to ensure you do not exceed the maximum length recommended.
