Short Description

Strippable spray booth coating can be rolled or sprayed onto the sides of your spray booth to protect the surface from over spray. Easily peeled away during booth maintenance to leave your spray booth perfectly

clean.

Description

Strippable spray booth coating can be rolled or sprayed onto the internal sides of your spray booth to protect the surface from over spray. Easily peeled away during booth maintenance to leave your spray booth perfectly clean.

Best applied when your booth is new but it can be applied anytime after provided that you clean the surface. The strippable coating will last forever but it is best if you remove the coating every 12 months and then re-apply it will make the end of year clean up much faster.

Atomex Strippable Spray Booth Coating is available in two sizes -

4 Litre Strippable Spray Booth Coating - Part No. AX/11-881-004A

20 Litre Strippable Spray Booth Coating - Part No. AX/11-881-020A
