Short Description

Graco 206995 (TSL) Throat Seal Liquid is designed to lubricate piston airless sprayers.

Description

Lubricating your piston airless sprayer should be done at the beginning of each days work, half a teaspoon is all that is required. The lubrication oil is designed to sit in the wet cup of your airless sprayer to ensure that the piston rod is lubricated as it travels up and down through the upper packing seals.

Lubrication oil will also prevent overspray from sticking to the piston rod which could damage the pump seals.

Graco TSL Throat Seal Liquid is available in three sizes -

Graco Part No. 206994 - Graco TSL 8oz (240ml) Bottle

Graco Part No. 206995 - Graco TSL 1 Quart (950ml) Bottle

Graco Part No. 206996 - Graco TSL 1 Gallon (3.8L) Bottle
