## Product Images

## Short Description

Fluid Film Protection Spray is a lanolin based protection film that will help keep your airless sprayer in new condition.

## Description

---

Keep your airless sprayer in new condition by applying Fluid Film Protection Spray to the outside of your machine. This lanoline based spray is designed to prevent corrosion, the film does not dry which means any overspray on your airless sprayer can be wiped off leaving your machine shiny and new.

### Fluid Film Protection Spray Features –

- Protects all metals
- Lanoline based
- Superior lubricant
- No solvents
- Long lasting
- Non toxic and non hazardous
- 333 Grams Per Can
