Short Description

Binks Quick Mixer is a handheld air driven paint mixing agitator designed for mixing all types of materials.

Description

Binks air driven paint agitators are designed for a wide variety of industrial and automotive applications. The agitators ensure paints and fluids are agitated precisely to keep paint solids in suspension and maintain optimum finishing characteristics.

Binks Quick Mixer Features-

- Explosion-proof direct drive air motors: 1 HP (standard). Implosion-type high shear mixer blades thoroughly mix 5 gallons of paint in less than 60 seconds.
- Stainless steel shaft and impeller. Specially welded stress points makes mixer virtually unbreakable.
- Puncture-proof: Patented double ring design eliminates damage to container.
- Recommended lubricant: SAE 10W non-detergent oil, 10-20 drops daily.
- For use with 20 litre drums or smaller.

Binks Part No. 149-873
