Short Description

Graco 222900 Viscount II 20:1 complete pump package with 580cc Dura-Flo stainless steel fluid section is the ideal truck mounted paint pump for road marking in Australia.

Description

Graco offer a range of complete hydraulic driven pumps suitable for road marking trucks in Australia. The reliable Viscount II hydraulic motor combined with either the Dura-Flo 1800 or Dura-Flo 2400 displacements pumps have become the standard in road marking truck equipment.

The Viscount II hydraulic motor will function efficiently in varying temperatures, producing consistent hydraulic power with quiet operation. These hydraulic motors will require a hydraulic power pack for operation so please be sure to download the specifications and inform your hydraulic supplier.

Graco Viscount II Hydraulic Motors Feature –

- Clean, quite and efficient hydraulic power
- Extremely durable with long-life packing seal design
- High efficient Viscount hydraulic motor reduces energy cost
- Viscount II hydraulic motor will use on 20% energy compared with air motors.

The Graco Dura-Flo pumps are available in 430cc and 580cc displacement. Dura-Flo pump are available in carbon steel or stainless steel versions with a variety of packing seal configurations. Dura-Flo pumps have a large displacement of paint and are ideal for line marking truck applications where large tip sizes may be used with multiple guns for simultaneous spraying.

Graco Dura-Flo Fluid Pumps Feature –

- Stainless steel and carbon steel models
- Variety of internal packing seal options
- Positive displacement with 2 balls provides uniform paint delivery
- Improved serviceability with fewer parts and faster repairs

The longevity of the Viscount II Hydraulic Motor coupled with a Graco Dura-Flo displacement pumps make this the ideal choice for road marking trucks.

Contact our office for a better price on your next road marking truck pump. We deliver Australia wide.
