Short Description

Graco 184595 Adapter Connecting Rod is used between the Graco Viscount II Hydraulic Motors to connect either a Dura-Flo 1800/2400 or Atomex D2400 line marking truck pump.

Description

Graco 184595 Adapter connecting rod is fitted to the end of the hydraulic shaft on the Graco Viscount II hydraulic motor.

The adaptor screws onto the shaft of the hydraulic motor and is required if you want to fit either of the Graco Dura-Flo 1800/2400 or Atomex D1800 fluid sections.

Compatible with the following components –

- Graco Viscount II Hydraulic Motor
- Dura-Flo 1800 430cc Displacement Pump
- Dura-Flo 2400 580cc Displacement Pump
- Atomex D2400 5800cc Displacement Pump

Graco Part No. 184595
