Short Description

Nitto Lock Cupla 200 Safety Series SH Socket Hose Tail for compressed air connections are available in L-20SH, L-30SH & L-40SH. One touch connection air fittings with safety lock mechanism.

Description

Nitto Lock Cupla 200 Safety Series push to connect air fittings have higher air flow compared with the original Hi-Cupla but include Nitto's safety lock mechanism that prevents unexpected disconnection.

Made in Japan these high quality compressed air fittings feature –

- Lock mechanism prevents unexpected disconnection after connection. Suitable for intermediate Cupla for hose extensions.
- Simply push the plug into the socket (or socket over plug) for one-touch connection. Excellent handling improves working efficiency.
- Ball bearing type swivel mechanism reduces load on hands and prevents hose twisting. (SNRG model)
- For hose connection, simply slide it over the nipple and tighten the nut. (SNRG model)
- Spring nut to prevent hose kinking is standard equipment. (SNRG model)
- Low pressure loss valve mechanism gives improved flow rate.

Interchangeability

- Can be connected to Hi-Cupla Series plugs (Models 20, 30 & 40)
- Compatible with all Nitto Hi-Cupla Series products

Nitto Lock Cupla 200 SH Socket Hose Tail are available in –

- L-20SH with 1/4" hose tail to suit 8mm air hose
- L-30SH with 3/8" hose tail to suit 10mm air hose
- L-40SH with 1/2" hose tail to suit 12mm air hose
