

# 12mm True Blue Air Hose With Fittings

As low as  
**\$26.94**

## Product Images

## Short Description

12mm True Blue Air Hose can be cut into custom lengths with a selection of air couplings from Nitto, Ryco & Jamec Pem either crimped or clamped. Hose assemblies are cut, fitted and sent the same day as ordered.

## Description

12mm True Blue air hose is manufactured in Australia using rubber material with PVC coating and polyester braiding, this hose will not swell at the ends where fittings are connected and does not go hard in colder temperatures like cheap Asian made air hose.

We offer a range of custom made hose lengths with fitted air couplings using only genuine Nitto, Ryco & Jamec Pem fittings. Hose couplings can be either clamped or crimped using steel ferrules.

We offer a range of air couplings on 12mm air hose assemblies –

### Clamped Couplings

- Nitto One Touch Coupling & Adaptor
- Nitto Coupling & Adaptor

Hose assemblies are cut to length and couplings are fitted on the same day as ordered, this means that we are not sending pre-cut hose assemblies that have been sitting around for months. When hoses are coiled and tied for a long period of time the hose retains this memory and can be very annoying when you first uncoil and use.

AA Spray stock a full range of air hose, air hose couplings, clamps and fittings with fast deliveryAustralia wide.
