Short Description

10mm OD x 6.5mm ID Polyurethane Tubing is available in blue, orange and clear. PU tubing is used with 10mm push fittings for air water and some inert gases. PU Tube can be ordered in a custom length or a complete roll.

Description

Polyurethane has high resistance to abrasion while being extremely flexible, it's widely used in pneumatic air control circuits and compressed air systems.

Designed for use with push fittings it can also be squeezed over hose tails and clamped.

Working pressure 170psi with a Maximum Burst Pressure of 213psi. Operating temperature -20°C to +50°C

Polyurethane tube sizing is always referenced by the outside diameter or "OD"

- 04mm PU Tube = 4mm OD x 2.5mm ID
- 06mm PU Tube = 6mm OD x 4.0mm ID
- 08mm PU Tube = 8mm OD x 5.0mm ID
- 10mm PU Tube = 10 mm OD x 6.5mm ID
- 12mm PU Tube = 12mm OD x 8.0mm ID

10mm Polyurethane Tubing is available in the following configurations -

Blue Colour

10mm Polyurethane Tubing Per Meter	Part No. AX/13-PUB10mm
10mm Polyurethane Tubing Roll/Spool	Part No. AX/13-PUB10/100

Clear Colour

10mm Polyurethane Tubing Per Meter	Part No. AX/13-PUC10mm
10mm Polyurethane Tubing Roll/Spool	Part No. AX/13-PUC10/100

Orange Colour

10mm Polyurethane Tubing Per Meter	Part No. AX/13-PUO10mm
10mm Polyurethane Tubing Roll/Spool	Part No. AX/13-PUO10/100

AA Spray hold extensive stock of True Blue Air/Water Hose, Multi Purpose Hose, Air Breathing Hose, Air Bull Hose, PU Tube, Nylon Tube, Goodyear Paint Transfer Hose and much more with fast delivery Australia wide.

Important - Please read before purchasing 100m spools

Polyurethane tubing has lineal meter markings printed on the outside of the tube to assist customers in estimating the length before cutting it away from the spool. We recommend that you physically measure all lengths for accuracy before cutting from a spool as these lineal increments can vary.

The printed lineal meter markings on a full 100m spool of tubing may not start at zero and also may not finish at 100m but a full spool does have 100m of tube.

We have had customers in the past buy full 100m spools and then claim that the hose is short because the printed marking on the hose indicates so.

Claims from customers suggesting that a full 100m spool of tube is short are ridiculous and will be denied.
