Four Port 1/4" BSP Pressure Switch 240 Volt will suit most air compressors.

## Description

Four Port 1/4" BSP Pressure Switch 240 Volt will suit most air compressors.

Pressure switches are designed to cut out the motor of an air compressor once the air in tank reaches a pre-set air pressure.

When an air compressor fails to start or stop running in many cases you will find that the pressure has failed, simple replacement of the pressure switch will solve most of the issues.
