

Automatic 1/2" BSP Timed Drain Valve 240 Volt

\$236.70
INCL. GST

Product Images

Short Description

Automatic 1/2" BSP Timed Drain Valves are used on air compressor receivers for automatic draining of condensate. Adjustable timing and duration will ensure excess water is discharged from your air tank.

Description

Take the worry out of remembering to drain your air compressor, timed automatic drain valves will reduce condensate out of your compressed air receiver at selected time intervals.

Always read the manufacturers instructions before fitting and be sure to relieve Air from the tank and turn the air compressor off.

Automatic 1/2" BSP Timed Drain Valve 240 Volt Features -

- Time interval adjustable from 0.5 – 45 Minutes
- Discharge time adjustable from 0.5 – 10 seconds
- Manual test button
- 240 Volt
