Short Description

Atomex X-50CT Contractor reversible airless spray tips are made in the USA using the hardest tungsten carbide in the industry. Ideal for the contract painter & decorator that demands the highest quality spray finish.

Description

Atomex X-50CT Contractor airless spray tips are made from the hardest tungsten carbide in the industry formulated to a Rockwell Hardness of 93 – a diamond's hardness is 100. We guarantee the longest tip life and superior pattern in the industry.

0.47	221	321	421	521	621	1.79
Fan Width - Centimeters						
	10-15	15-20	20-25.5	25.5-30.5	30.5-35.5	

Seal alignment, the patented tip seal has a square opening that fits on the end of the tip handle. This unique feature allows you to easily insert the seal into the guard. Then simply twist the tip handle to line up the seal cavity accurately to receive the tip shaft. Quick accurate installation every time!
