

3/8" BSP Air Compressor Oil Breather

\$17.29
INCL. GST

Product Images

Short Description

3/8" BSP Air Compressor Oil Breather can be used on any reciprocating air compressor pump that has a 3/8" BSP port for the oil breather, allows crank-case ventilation but will not allow oil vapour to escape.

Description

Oil breathers allow crank case ventilation whilst trapping in oil vapour produced by reciprocating air compressor pumps.

3/8" BSP thread with rubber gasket will produce a tight seal between the oil breather port and the oil breather.

Part No. AX/OB14
