Sundström 

Short Description

The Sundstrom SR100 Half Face Silicone Respirator is a negative pressure face mask suitable for heavy-duty

work during extended periods. Used either as a filtering device in combination with Sundstrom filters or in combination with the SR307 compressed air attachment.

Description

Sundstrom offer world class respiratory protection equipment leading the industry with products made in Sweden since 1926. Sundstrom products are widely used and trusted within the spray painting industry protecting applicators from the harmful effects of paint over spray.

Sundstrom SR100 Half Face Respirator features –

- Silicone mask (low allergenic, superior facial seal)
- Deep chin cup and broad nose rim
- Two exhalation valves
- New valve caps with air diffusion (no clogging during spray jobs)
- Continuous head strap or cradle harness
- Can easily be fitted with optional SmallTalk microphone and loudspeaker
- Accepts all Sundström filters and compressed air attachments

Sundstrom SR100 Half Face Respirator is available in three sizes –

Part No. H01-2112 SR100 S/M (small/medium)

Part No. H01-2012 SR100 M/L (medium/large)

Part No. H01-2812 SR100 L/XL (large/extra large)

Please note – The Sundstrom SR100 does not include filters, these will need to be purchased separately.

AA Spray stock a full range of spray painting respiratory safety gear from disposable masks, half-face respirators and full face positive air feed masks for enclosed spray booth applications.
