Short Description

The Sundstrom SR510 P3 is a mechanical filter that protects against all types of particles (dust, fume, fog, spray, asbestos), even bacteria, viruses and radioactive dust. Used with Sundstrom SR90, SR100, SR900 half mask's and the SR200 full face mask.

Description

The Sundstrom SR510 P3 filter separates 99,997% of the pollution in the air. That means that the air is 33.000 times cleaner on the backside of the filter media than in the front (the standard requires 2000 times cleaner air). A new feature is the increased filter area to 1300 cm2. It gives the filter an extremely low breathing resistance, in fact it's 70% lower than the standard requires. This filter also fits on all Sundström filter respirator products.

Sundstrom SR510 P3 Particle Filter will fit the following model respirators -

- SR90 Half Face Mask
- SR100 Half Face Mask
- SR900 Half Face Mask
- SR200 Full Face Mask

Sundstrom SR510 P3 Particle Filter will fit the following model PAPR -

- SR500 PAPR (Fan Unit)
- SR700 PAPR (Fan Unit)

Sundstrom offer world class respiratory protection equipment leading the industry with products made in Sweden since 1926. Sundstrom products are widely used and trusted within the spray painting industry protecting applicators from the harmful effects of paint over spray.

AA Spray stock a full range of spray painting respiratory safety gear from disposable masks, half-face respirators and full face positive air feed masks for enclosed spray booth applications.
