Short Description

Gas filter SR 218 Class 2, are designed for use with Sundström half masks and full face masks. The filter are of type A and provide protection against organic gases and vapours, such as solvents, with boiling points > +65 °C. The gas filter can easily be combined with particle filter SR 510 P3 R in order to obtain protection also against aerosols (particles), e.g. during spray painting.

Description

Sundstrom SR218-2 A2 Gas Filter is a common gas filter sold for higher capacity applications, combined with the Sundstrom SR510 P particle filter they are widely used in the spray painting industry for breathing protection.

For best result always use Sundstrom SR221 pre-filters to extend the life of your gas and particle filters.

Sundstrom SR218-2 A2 Gas Filter will fit the following model respirators -

- SR90 Half Face Mask
- SR100 Half Face Mask
- SR900 Half Face Mask
- SR200 Full Face Mask

Sundstrom offer world class respiratory protection equipment leading the industry with products made in Sweden since 1926. Sundstrom products are widely used and trusted within the spray painting industry protecting applicators from the harmful effects of paint over spray.

AA Spray stock a full range of spray painting respiratory safety gear from disposable masks, half-face respirators and full face positive air feed masks for enclosed spray booth applications.
