Short Description

Atomex Compressed Air Manifold Block 6 Port x 3/8" BSP Gold is a larger capacity air manifold with a removable centre block out. Designed for high flow compressed air circuits the manifold has mounting holes

allowing the manifold to be fixed in a variety of ways.

Description

Atomex Compressed Air Manifold Block 6 Port x 3/8" BSP Gold is useful when larger air volumes of compressed air is required, the 3/8" BSP ports allow larger sized air couplings and air hoses to be used.

The Atomex Gold Manifold Series come standard with a dividing plug in the centre of the air manifold which is designed to limit the number of ports being fed off a single air circuit. The dividing plug can be removed if not required.

Atomex Gold Compressed Air Manifold Block are available in the following sizes –

- AX/12-650-084 4 Port x 3/8" BSP Female Gold Manifold
- AX/12-650-086 6 Port x 3/8" BSP Female Gold Manifold
- AX/12-650-088 8 Port x 3/8" BSP Female Gold Manifold

AA Spray stock a full range of air hose, compressed air couplings & compressed air accessories with fast delivery Australia wide.
