Short Description

Binks 41-818836 1/2" Acetal Double diaphragm pump features PTFE Diaphragms, 316 Stainless Steel Balls & Check Valve Seats. Inlet and outlet ports rotate on 90° increments for customised installation and feature an externally serviceable pilot main valve while pump is installed.

Description

Binks Gemini II air operated double diaphragm pumps bring fluid transfer to the next level with 33% more fluid per stroke than previous models resulting in longer equipment life and lower maintenance costs.

Binks Gemini II 1/2" Acetal Diaphragm Pump features –

- All bolted construction
- Fully groundable
- Inlet & outlet ports rotate 90° increments
- Inlet & outlet ports are internally and externally threaded
- Positive priming check valve
- Durable diaphragm connection rod
- Variable delivery rate from 0-100psi
- Externally serviceable pilot and main valve while pump is installed
- Pump shear-sensitive materials
- Run dry without damage
- CE & ATEX certified
- 5 Year Warranty
- Made in the USA

Application –

Binks Gemini II Diaphragm Pumps are the premier pumps for spraying, transferring, or circulating a variety of coatings. The pump design provides consistent spray patterns for high quality finish applications including Wood, General Metal Fabrication, and Adhesives. The Gemini II pumps are rugged and designed to provide longer pump life for a variety of materials* and viscosities.

* Always check pump wetted parts are compatible with fluid prior to purchase *

Overview –

Binks Gemini II Series of air operated diaphragm pumps offer a more simplistic range of pumps in Acetal, Aluminium and Stainless Steel to suit a wide variety of material compatibility. Binks are made in the USA with quality components unlike other industry leading brands that have shifted manufacturing to China.

Binks Part No. 41-818836
