

Wagner VM5000 Control Unit For Electrostatic Spray Guns

\$4,791.00
INCL. GST

Product Images

Short Description

Wagner VM500 Control Unit is designed to drive both the Wagner GM5000EA & Wagner GM5000EAC electrostatic spray guns. The VM5000 features 80kV output with adjustable high voltage, monitoring function, safety cut-off and 10m grounding cable.

Description

Wagner VM500 Control Unit feeds power to your Wagner GM5000 EA or GM5000EAC electrostatic spray gun via the power cable that is included in the hose bundle set (purchased separately).

The Wagner VM5000 is an advanced control unit where voltage adjustment may be required for specialised applications and materials taking the guess work out of electrostatic spray gun set up. The VM5000 also includes maintenance scheduling and data logging for “hours of use” allowing you to plan forward routine maintenance of your electrostatic spray gun.

Wagner VM5000 Control Unit features –

- Indication when HV is generated
- Monitoring of gun grounding
- Display of working conditions
- Suitable for ATEX Zone 2
- Display for voltage and current
- Receipt storage
- Standby button
- IP54 Enclosure Class
