

# Wagner AR 5000 Round Jet Nozzle

**\$547.98**  
**INCL. GST**

## Product Images

## Short Description

Wagner AR5000 Round Jet Nozzles are designed for the Wagner GM5000 EA low pressure electrostatic spray gun to produce a conical round shape spray pattern. Available in two sizes D8 & D12.

## Description

---

Wagner AR5000 Round Jet Nozzles will produce a round type conical spray pattern emulating the pattern produced by spinning bell electrostatic spray guns. Round spray patterns from electrostatic spray guns are primarily designed to wrap around objects from one side but in the case of conical nozzles it may be required to spray the object from two different angles to achieve uniform coverage.

Achieving complete material wrap around an object when spraying with electrostatic spray guns will have many factors that contribute to a successful coating. Such factors are –

- Type of material being sprayed
- Thinning of the material
- Conductivity of the material
- Size of the object
- Shape of the object
- Air temperature & wind if spraying outside

### **Wagner AR 5000 Round Jet Nozzle are available in two sizes -**

AF 5000 Round Nozzle D8 (0.8mm)      Part No. 2310558

AF 5000 Round Nozzle D12 (1.2mm)      Part No. 2315050

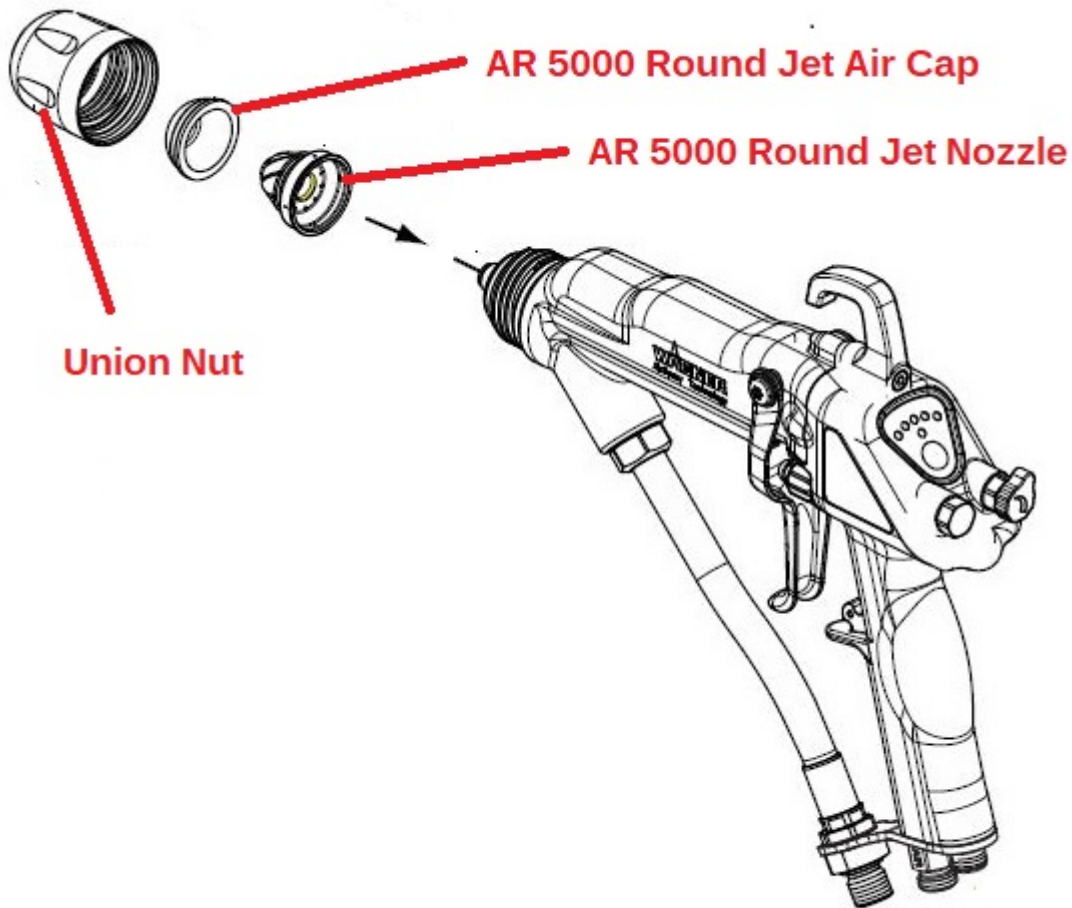

WagnerAR5000 Round Jet Nozzle needs to be used with a Round Jet Air Cap that corresponds to the nozzle size.

### **Wagner AR 5000 Round Jet Air Cap sizes –**

AF 5000 Round Jet Aircap D8      Part No. 2310557

AF 5000 Round Jet Aircap D12      Part No. 2315049

## Wagner GM5000 EA with Round Jet Nozzle

AA Spray stock a full range of electrostatic static spray painting systems with service and spare parts back with fast delivery Australia wide.
