Short Description

The DeVilbiss liner system is intended for use in a KB II pressure cup. The liner creates a barrier so the coating cannot contact the cup or lid. The liner can be used with any material that is compatible with polyethylene. The only wetted cup part is the fluid tube which is either stainless steel or aluminium.

Description

DeVilbiss KK-5051 Disposable KB II Cup Pot Lid Liner Kit 20 Pack are suitable for the DeVilbiss KB II Series 2.3 Litre (2-quart) pressure pot. Designed to suit both KB-555 Aluminium & KB545-SS Stainless Steel pressure pots.
