Short Description

Iwata AF2109MT Air Fed Mask Kit, 4 Stage Filter Kit (Martech Filters) & 10m Air Breathing Hose includes nape cover and storage bag. Iwata AF2109MT full face air fed mask kit is a ready to go air breathing package for

your spray booth offering the maximum air breathing quality.

Description

Iwata air fed masks have developed for the professional automotive refinisher with advance design features to ensure comfort, functionality and superior vision while offering air breathing protection compliant with Australian/New Zealand Standard 1716-1994.

Iwata AF2100 Air Fed Mask Kit includes –

- Complete mask assembly with nape cover
- Waist belt, regulator and filter with pre-set air pressure
- 1.2m flexible whip hose for air supply to the spray gun
- Plastic storage bucket
- 10m yellow air breathing hose with fittings
- Wall mounted CFRCB 3 stage filter kit
- Includes filter regulator, coalescing & activated carbon filter

Iwata Air Fed Masks feature –

- The AF2100 Air Fed mask is a Class LDH3 safety device which provides a protection factor of 200 times the occupational exposure limit.
- All Anest Iwata air fed masks are fitted with double action safety couplings to prevent accidental disconnection of the air feed line to the mask.
- The AF2100 Air Fed mask features a replaceable visor cover, which allows a panoramic view for the user. The floating headband has four adjustment points, with front and rear adjustment, for superior user comfort. The face seal and sweat band are replaceable for added hygiene.
- Other features include a visual air supply indicator located within the user's peripheral vision—allowing the user to ensure that air is being supplied at all times.
- The AF2100 is supplied with a waist belt and pre-set air regulator that meets the requirements of AS/NZS1716. The belt includes a pliable bracket that moulds to the user's body contour and has a quick release buckle, for ease of fitting.
- The unit also comes with a neck and shoulder cover, to provide full protection for the user's head.
- A 1.2 metre flexible gun whip hose, with ultra light fittings, comes with the unit, to provide enhanced spray gun manoeuvrability.

Martech 4 Stage Filter Kit features –

- Filter regulator with 5 micron particle filter
- Coalescing oil filter with 0.01 micron filter
- Activated carbon filter with 0.003 micron filter
- Wall mount brackets
- Pressure gauge
- Automatic moisture drain
- Advanced air breathing protection & compliance
