Description

Iwata CFRB 2 Stage Filter Kit for Air Breathing is the minimum requirement for filtering compressed air for use with full face air fed mask.

Iwata CFRB 2 Stage Filter Kit for Air Breathing features -

- FR204 filter regulator with 5 micron filter element
- COAB Coalescing filter with 0.01 micron filter element
- Wall mount bracket
- Gauge
- Inlet & outlet fittings
- A/NZ Standard 1716-1994 Compliant

Replacement Filters -

- 5 Micron Filter Element Part No. C/FR202.07
- 0.01 Micron Filter Element Part No. C/COAB.01

Air fed breathing masks must be supplied with filtered compressed air to remove oil, water and contamination using a two stage, three stage or four stage filter system such as the Iwata CFRB & CFRCB. Air must be supplied from the filters to the mask waist belt using only air breathing hose compliant with Australian Standards.

Iwata Part No. C/CFRB

AA Spray stock a full range of Iwata Air Fed Masks including tear off visor covers, belt filters and replacement activated carbon filters with fast delivery Australia wide.
