Short Description

Martech 75430 4 Stage Filter Kit for Air Breathing with Regulator for maximum air quality. Four stage filter systems will remove moisture, oil vapour, gaseous hydrocarbons, dirt, rust, scale and other dangerous contaminants to provide clean, safe breathable quality air.

Description

The Martech 4 Stage Air Breathing Filter System is designed for maximum air breathing quality. This clever filtration system makes use of four filters to remove dangerous air contaminants such as moisture, oil vapour, gaseous hydrocarbons, dirt, rust & scale with an automatic moisture drain and air regulator for precise pressure control.

Martech 4 Stage Filter Kit for Air Breathing features -

- 4 Stage filtering of compressed air
- 1st Stage Coalescing Filter
- 2nd Stage 5 Micron Filter
- 3rd Stage Charcoal Absorption Filter
- 4th Stage Active Charcoal & Co-Knit Cotton 0.01 Micron
- Automatic moisture drain
- Pressure regulator
- Wall mounting brackets
- 50cfm air flow capacity
- Made in the USA

Replacement Filters -

- 11 Filter Pack (12 Months Usage) Part No. C/85890

Air fed breathing masks must be supplied with filtered compressed air to remove oil, water and contamination using a two stage, three stage or four stage filter system such as the Iwata CFRB & CFRCB. Air must be supplied from the filters to the mask waist belt using only air breathing hose compliant with Australian Standards.

Iwata Part No. C/75430

AA Spray stock a full range of Iwata Air Fed Masks including tear off visor covers, belt filters and replacement activated carbon filters with fast delivery Australia wide.
