Short Description

Graco 240265 HVLP 1 Quart Cup Gaskets 5 Pack are used with the 244130 1 Quart Metal Siphon Cup. These cup gaskets are fitted into the lid of the metal siphon cup and should be replaced when they are worn or swelled.

Description

Graco 240265 HVLP 1 Quart Cup Gaskets 5 Pack of polyethylene cup seals are used in the lid of the Graco 244130 HVLP metal siphon cup to prevent material leakage and drips.

Keep in mind that the 1 quart (0.95 Litre) material cup used with Graco Edge II Plus, Edge II and Edge spray guns is pressurised with air forcing the paint material to the gun nozzle. If your lid seals are worn, damaged or swelled paint will leak between the cup and the lid causing you problems. Keep a pack of these cup seal gaskets in your tool box to prevent down time on the job.

Graco Part No. GA/240265

AA Spray stock a full range of Graco HVLP guns, fluid sets, check valves, filters and hoses to suit all models of Graco HVLP Turbine Sprayers with fast delivery Australia wide.
