Short Description

Graco 256957 HVLP Check Valve Kit Complete for Graco Edge II Plus, Edge II & Edge HVLP Guns with metal siphon cup. Includes air tubes and one way check valve.

Description

Graco 256957 HVLP Check Valve Kit Complete are a one way check valve kit that allows air transfer from the gun to the cup. The check valve system allows air to flow in only one direction which pressurises the siphon cup but will not let air travel back through the check valve.

These check valves will fail so having a spare set will reduce down time on the job. When a check valve fails the gun will shoot a stream of paint material continuously through the nozzle after you have released the trigger. Replacing the check valve will solve this problem.

Graco Part No. GA/256957

AA Spray stock a full range of Graco HVLP guns, fluid sets, check valves, filters and hoses to suit all models of Graco HVLP Turbine Sprayers with fast delivery Australia wide.
