Short Description

Wagner 0297051 Check Valve Kit 3 Pack will suit all Capspray, Wagner & Titan Maxum II & NBC HVLP guns with metal suction cup.

Description

HVLP spray gun check valves allow air transfer from the gun to the cup. The check valve system allows air to flow in only one direction which pressurises the siphon cup but will not let air travel back through the check valve.

These check valves will fail so having a spare set will reduce down time on the job. When a check valve fails the gun will shoot a stream of paint material continuously through the nozzle after you have released the trigger. Replacing the check valve will solve this problem.

Wagner Part No. 0297051

Replaces Wagner Part No. 0277482, 0276248 & 0277483
