Short Description

Ransburg 11488-00 Bell Assembly 4" includes the rim, hub and probe. For use with Ransburg No.2 Deuce Electrostatic Guns.

Description

This item has been out of stock for quite some time due to manufacturing difficulties and we are uncertain when more stock will arrive.

If you are desperate for a replacement bell we do have 2-3/4" & 6" Bells in stock but don't forget you will need to buy the appropriate feeder tube to suit the bell.

Ransburg 11488-00 Bell Assembly 4" includes the rim, hub and probe but does not include the 3700-00 feed tube. 4" bell is standard and the most common size bell used which is suitable for most applications.

Please note the feed tube position needs to be at "4-5 o'clock" – Please refer to the instruction manual.

Ransburg No.2 Electrostatic Gun Bell options –

Bell Size	Bell Part No.	Feed Tube Part No.	Approx Max Delivery Rate
2-3/4"	11491-00	6335-00	75cc/min
4"	11488-00	3700-00	120cc/min
6"	11492-00	4076-00	180cc/min

Do not soak the bell in solvent and do not clean the bell with acetone. The Ransburg No.2 Electrostatic bells are coated with a special conductive material that will breakdown if soaked for a period of time in solvents.

Remove bell from the gun, clean with solvent and dry immediately after cleaning.

Ransburg Part No. 11488-00
