DEVILBISS®

Short Description

DeVilbiss Cspray gravity feed spray guns are designed especially for the yacht and light marine market. Featuring CDTG (Critical Droplet atomisation Technology) air caps that provide enhanced performance and the best possible finish for marine paints.

Description

DeVilbiss has worked with the leading marine paint companies to evolve the Cspray gun to meet the specific finish requirements for the application of the superior topcoat finishes supplied to the Marine, Yacht and Super Yacht New-build and Refurbishment markets.

DeVilbiss expertise and performance is unequalled in the industry!

The DeVilbissCspray Gravity and Pressure guns unrivalled spray performance is achieved with the utilisation of the very latest Critical Droplet atomisation Technology (CDT) DeVilbiss air caps. All Cspray guns are precision built by DeVilbiss using the best materials and component parts for a guaranteed, reliable, long and durable working life in all industrial markets.

DeVilbiss CSpray Spray Guns – Naturally comfortable

Designed in partnership with the Market Leading Paint Manufacturers. NEW Critical Droplet atomisation Technology (CDT) air caps provide enhanced performance and best finish right across the range of Marine paints. Cspray has Stainless Steel tips, needles and fluid passageways as standard. The moment you pick up and handle the Cspray gun with the unique blue finish you will realise this gun is special.

DeVilbiss CSpray Spray Gun Features –

- CDT (Critical Droplet atomisation Technology) air cap.
- Designed specifically for the marine paint industry
- Stainless Steel tips, needles and fluid passageways as standard
- Curved handle design – enhances gun handling to reduce operator fatigue
- Light trigger pull and improved air flow
