Description

Graco 240518 Replacement Piston Rod will suit standard Graco 695/795 UltraMax II airless sprayers, Gmax II 3900 petrol airless sprayers, LineLazer ES2000 and 3900 line marking machines.

When replacing packing seals on your pump inspect the piston rod for wear, the piston rod shaft must be true, straight and have no wear marks, ripples or elongated scratches. Any wear or damage to the piston may cause the pump to leak externally or internally and will certainly reduce the life of your new packing seals.

Graco 240518 Replacement Piston Rod can only be used in standard pumps, the rod can not be used in Graco Pro-Contractor pumps.

Precision made in the USA to the highest quality for maximum performance.
