Description

Graco 222879 Replacement Pump Repair Kit is suitable for Graco Dura-Flo 2400 580cc pump lowers. Service kit includes PTFE/Leather upper/lower packing seals and teflon sealing rings.

Graco 222879 Replacement Pump Repair Kit is suitable for Graco Dura-Flo 2400 580cc pump lowers. Service kit includes PTFE/Leather upper/lower packing seals and teflon sealing rings. Kit does not include upper or lower balls, these will need to be purchased separately.

Graco 222879 Replacement Pump Repair Kit can be used in the following pumps -

D2400 Carbon Steel Pump 580cc

222801 Carbon Steel Pump 580cc

222991 Carbon Steel Pump 580cc

222992 Carbon Steel Pump 580cc

222803 Stainless Steel Pump 580cc

222993 Stainless Steel Pump 580cc

222994 Stainless Steel Pump 580cc

236226 Stainless Steel Pump 580cc

236230 Stainless Steel Pump 580cc

L580CS Carbon Steel Pump 580cc

L580SS Stainless Steel Pump 580cc

Graco 222879 Replacement Pump Repair Kit can be used in both carbon steel and stainless steel pumps. We recommend the use of the 222879 service kit over the 222875 kit because it generally gives longer service life on truck mounted line marking pumps. The combination of PTFE/Leather seals gives the highest wear resistance in both waterborne and solvent based materials especially on paints that contain debris and higher solids.

If you are heating the paint in your line marking truck then we would recommend using the 222875 kit as this uses UHMWPE/PTFE packing seal combination to tolerate higher material temperature.

Atomex Part No. AX/G222-879

Replaces Graco Part No. 222879

Can be used in place of Graco Part No. 222875
