## Description

---

Graco 24B156 Replacement Heavy Duty Prime Drain Valve will suit a wide range of Graco airless sprayers from Ultra Max II 695, 795, 1095 & Mark V models.

Prime/spray valves or drain valves will wear over time, a faulty drain valve will leak fluid back into your paint drum when the valve is closed or not open when the valve is turned to relieve pressure from the pump.

Precision made in the USA to the highest quality for maximum performance.
