## Description

DeVilbiss Advance HD Gravity spray guns are high performing Compliant and Conventional air atomising guns suitable for most industrial spray finishing applications. The guns can be used with virtually all industrial solvent and water based paints, coatings, lubricants, dyes, stains, varnishes, lacquers and adhesives.

### DeVilbiss expertise and performance is unequalled in the industry!

The DeVilbiss Advance *HD* (High Demand) gravity feed spray guns are designed for conventional technology, the air cap provides exceptional atomisation for coating wood, metal, plastic, ceramic and composite substrates with most types of solvent, waterborne, high solids and 2K materials.

### DeVilbiss Advance HD Gravity Feed Spray Gun – Naturally comfortable

Advance *HD's* unique high capacity airflow and outstanding atomisation characteristics are combined with a separate “balanced” air valve to provide an unrestricted flow of compressed air through the gun body, this coupled with light, feel right comfort is an unbeatable combination. DeVilbiss Advance HD spray guns are ideal for small operations or high volume spraying, with the added bonus of instantly improved finishing productivity.
