Short Description

The Atomex GM-60E can be purchased as a bare 'stage pump' when a full airless sprayer package is not required.

Description

The Atomex GM-60E can be purchased as a bare 'stage pump" when a full airless sprayer package is not required.

The Atomex GM-60E airless sprayer can be purchased in five stages when a full airless sprayer package is not required. In certain situations you may not require a gun and hose or a trolley for example so various stages of the package can be purchased to suit your requirements

Atomex GM-60E Stage 4 Bare Pump Includes:

The Atomex GM-60E stage 4 bare pump is a complete pump/motor with pressure gauge and "T" piece mounted on a chrome plated trolley with tyres.

The Atomex GM-60E airless paint sprayer features:

No electronics, sensors or microprocessors to fail

Can be run on a 3.5kva generator or larger

Pump will support 45m of paint hose for greater access

25 Months Warranty for commercial use

Simple mechanical pump designed that has been used for over 35 years

Atomex is Australian Owned
